Intro to Story

- Main character just turned 18 years old and had been given a mysterious box. Inside was a letter from your dad who has disappeared years prior due to an unknown expedition. The letter had stated that it was time for you to follow in his footsteps and to explore the mysterious Parallel world.
- Also inside the box, has 3 candles that give the user, upon ignition, access to the parallel world. There, guided by Mr. Elfo (your dad's old friend), you must conquer each land on the map by answering certain questions such as themed trivia, problem solving, and even riddles to discover the true whereabouts of your father.
- After each completed land, they will restock your candles to 3 if necessary.

Mister E's Riddle Realm

Mister E. was an old friend of your father's, maybe he has some clues about the legacy your father left behind. Unfortunately, he doesn't like accepting many visitors on his mountain, so he has set a couple of riddles along your path to the summit.

Wish you the best of luck.

Teleported to Mister E's Riddle Mountain...
(Tip: In this stage, you may use the phrase: 'hint' to get help.)

- **Helpful Hint!**

Hello S. Robinson,
I knew you would someday pay me a visit.
Your father and I have travelled together for many years solving puzzles and uncovering mysteries.
I'm sure you have many questions for me, but first...

Let's see if you have what it takes to be an adventurer just like your father.

Best regards,
Mister E.
|

P.S. Along with this letter, I have enclosed one more item that will help you find me.

- Example Questions:

Mister E's first guide has lakes with no water, mountains with no stone, and cities with no buildings. What is it?

Answer: hint

Hint: _ _ _

Mister E's first guide has lakes with no water, mountains with no stone, and cities with no buildings. What is it?

Answer:

As you start your journey, you realized that this would be a really long and lonely trip, so you called an Uber driver nearby.

Once he arrives, you guys continue your trip going the opposite way up a one way road, but then you pass two policemen along the way, none of which stopped you. Why not?

SUM DIVIDED FOREST

Well well well, look who we have here. Its Dr. Robinson's son... What's the name? What's the name again?
It's S. Robinson right?

(press Enter to continue)

O my my, I've done it again... I'VE DONE IT AGAIN! I am once again.
Thee genius of the world! AHAHHHAHA. No one can outsmart me and my questions!

Now S. Robinson, the success rate to my questions are a slim to none. With your father only being the one to beat them.

(press Enter to continue)

Which means, I am smarter than 99.99% of the WORLD!!
But for you, I will give you an opportunity to gain additional candles for the first two questions... since I like your father.

- KEEPER: MR. PI
- PERSONALITY: CONDESCENDING & EGOTISTICAL
- 3 LEVELS: 2 MATH PROBLEM & 1 GUESSING GAME

SUM DIVIDED FOREST: Q1:

- GAME: TOTAL HEIGHT OF MR. PI'S FAMILY
- REWARD: 1 ADDITIONAL LIFE

QUESTION:

Question 1: *ahem* probably your only question AHAHAHAHAHA!
These are the height of my family in inches. Not FEET, but in inches:
[85, 60, 84, 77, 71]

What is our total combined height in inches? HMMMM?
Answer:

IF FAILED ATTEMPT:

What is our total combined height in inches? HMMMM?
Answer: 367

Ahh yes! No one can defeat the genius thee Mr. Pi's questions!
You do have 2 candles remaining though. So good luck... You're going
to need them...

What is our total combined height in inches? HMMMM?
Answer: |

CORRECT ANSWER:

Question 1: *ahem* probably your only question AHAHAHAHAHA!
These are the height of my family in inches. Not FEET, but in inches:
[85, 60, 84, 77, 71]

What is our total combined height in inches? HMMMM?
Answer: 377

Oh Oh my. That umm, that is correct. I shall give you one additional
candle. You have a total of 4 candles.

(press Enter to continue)

SUM DIVIDED FOREST: Q2

- GAME: CONTINUATION- AVERAGE HEIGHT OF MR. PI'S FAMILY (ROUND TO WHOLE NUMBER)
- REWARD: 1 ADDITIONAL LIFE

ATTEMPT 1: →

Well, you managed to get the first question right. I like you... Here is another opportunity to gain another candle before my MAIN MASTERPIECE!

Now... What is the average height of my family in inches? (round to the nearest whole number)

Answer:74

That is not the right answer.

You have 3 candle(s) remaining. Please use them wisely and try again.

ATTEMPT 2: →

Now... What is the average height of my family in inches? (round to the nearest whole number)

Answer:75

That is correct! You have gained 1 additional candle! You have a total of 4 candles.

PROBLEM 3: THE MASTERPIECE - RANDOMIZED NUMBER

Here is the last and final problem. I will be generating a number between 1-10. You need to figure out what that number is.

Do not worry, if you lose a candle, I will give you a hint.
I only have 3 hints so use them wisely.

- TOPIC: RANDOM NUMBER IS GENERATED AND PLAYER MUST GUESS THE NUMBER (WITH HINTS)

Pick a number between 1-10.
Here is your first hint: The number is odd.

What is your answer?: 3
That is not the right answer.
You have 3 candle(s) left.

Here is your second hint:
The number is in the lower half.

What is your answer?: 4
That is not the right answer.
You have 2 candle(s) left.

This is your last hint.

This number shows the best of the best.

What is your answer?: 1
That is not the right answer.
You have 1 candle(s) left.

What is your answer?: 1
You are correct! The correct number was 1.

OTHER 3RD HINTS:

This number likes to crash on dates.

This number is very lonely on two hands.

This number is the most popular number.

This number is the first to be said on new years eve.

Conclusion: End of the Journey?
